

# Annual Speech

Hi my name is Kayanush Patel and I am a student at ATFS. ATFS has helped me in many ways. One way it has helped me is with a lot of my studies. I have also made many new friends this year. I improved a lot on my listening skills here at ATFS. ATFS has helped me exceed in my grades a lot. I always had trouble with fractions before, but with the help of the workbooks at ATFS, I am really good at it. A lot of my math skills I have now, have benefited from ATFS. ATFS helps me get my homework done neatly and correctly. ATFS has helped me get ready for my MCAS and other big tests. I think that ATFS has helped me with my behavior, at least that's what my parent's, think. I am thankful for coming here at ATFS. Thank you for listening.
