

## Annual day speech

Hello my name is Mrinalini. ATFS has helped me a lot during this past year. At ATFS I got ideas which really helped me with lots of my school projects. ATFS taught me to appreciate others points of view. ATFS keeps most of my memories cherished. ATFS believes in never giving up. It is a place of friendship. ATFS has many people who care about our future. One of the best memories here is when the older kids sat outside and we got to sit wherever we wanted. Another day we made star posters we researched a famous person and made a poster on him or her individually. We had to be creative. ATFS means wonders!
